PRODUCT INFORMATION

PROTECTION	Liquids, industrial oils, cut resistance.
MATERIAL	Coating: nitrile, fully coated. Liner: UHMWPE: Tsunooga™, mineral fiber, HPPE, spandex.
COLOUR	Wine red and black.
PACKAGING	12 pairs/polybag; 72 pairs/box.
SIZES	9/L, 10/XL.

ENVIRONMENTS

Mechanical industry, metallurgy, automotive, oil and gas, glass, public authorities.

RECOMMENDATION

OIL AND MECHANICAL RESISTANCE: Extremely robust and flexible nitrile coating.

CUT RESISTANCE: For working in oily or greasy environments, with tactile sensation and improved grip.

WONDER GRIP® TECHNOLOGY

GRIP

Our focus is on developing gloves that are thin and easy to use whilst providing the best grip through the design and material used for each glove. We believe grip strength will improve safety.

The sponge-like coating on each Wonder Grip® glove mimics the suction cup characteristics found on the tentacles of an octopus. our focus on maximising the quality, durability and grip potential of each Wonder Grip® glove design has significantly enhanced performance in dry, wet and oily conditions.

NITRILE

Nitrile has the advantage of being resistant to friction and oil. Wonder Grip® gloves have not only encompassed the advantages of nitrile but also dramatically improved their overall oil grip strength.
